**2015 GREEN HERMIT PRODUCT MANUAL**

LIGHTWEIGHT TRAVEL PIONEER

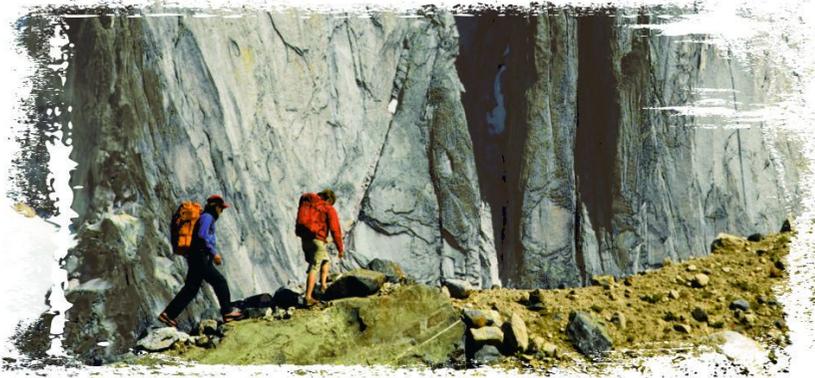

*Lightweight travel pioneer*

## GREEN HERMIT LIGHTWEIGHT TRAVEL PIONEER

The hummingbird with the bright color is the smallest bird known in the world and the only bird which is able to fly backward, and it can also hover in the sky and fly towards the left and right by flapping its wings fast. The small, light and omnipotent image of the hummingbird highly matches with the product property of GREEN HERMIT brand. With the succinct design, bold color style and the combination of the function and fashion, our products remove the unnecessary decoration and strengthen the practical applicability and the expression of the uncomplicated elegance. On the aspects of workmanship and material selection, the first-rate quality and technical advancement of the big brand are fully displayed. GREEN HERMIT, as the initiator of the fast fashion concept of "light travel", advocates the simple and relaxed travelling ,means and hopes everything during the journey is comfortable.

GREEN HERMIT, as a new innovative product with the "Green Hermit" as its brand image, is devoted to developing and promoting the lightweight outdoor travelling equipment.

GREEN HERMIT, as the initiator of the fast fashion concept of "light travel", advocates the simple and relaxed travelling ,means and hopes everything during the journey is comfortable.

**CORDURA**  
BRAND

Wear-resistant fabric, specially used by the strong! A brand created for long lasting usage. CORDURA® is the registered trademark of the durable fabrics of Invista, which is one of the largest comprehensive manufacturers for the polymer, intermediate and fiber around the world.

The high performance and super durability enable CORDURA® fabrics to stand out from a series of high-quality products. CORDURA® fabric, specially designed for the products to be used perpetually and constantly, applies the high fiber technology and has the remarkable properties of scratch resistance, abrasion resistance, tear resistance and puncture prevention. At the same time, it is also equipped with the excellent durability and versatility, and widely used in all kinds of high-quality products with the high requirements to the serviceability. CORDURA® fabric will make the products sturdier and more durable, thus creating a higher use value. From the military use to the civil use and from the knapsacks and trunks to the footwear, clothes and interior decoration, CORDURA® fabric endows the products with the fashionable, durable, exquisite and light advantages.

**ITW Nexus**

After inventing the first plastic eye-splice in Chicago, US in 1977, ITW Nexus is always devoted to developing the high-quality products, which are widely used in the outdoor, diving and infant categories and the domains such as the bicycle helmet and military equipment, and it has performed well in each domain.

ITW Nexus fasteners are applied in the comparatively high-end outdoor brands, such as Arc Teryx, Granite Gear, Gregory, Osprey, Mountain Hardware, The North Face, Jack Wolfskin, etc. Due to its high-end tension strength quality and design concept, ITW Nexus fasteners are favored by so many outdoor big brands.

**HYPALON**

The US Dupont Hypalon® is a high-tech product with an overlong service life for 20 years. It is equipped with the remarkable durability, water repellency and good chemicals resistance, mould prevention, heat insulation, UV protection, ageing resistance, invariant color, innocuity, easiness to clean, super-strong toughness, lightness, acid and alkali resistance and rot resistance. Besides, the low water absorption enables Hypalon® to show up a long life in the hostile environment.

**YKK**<sup>®</sup>

YKK, as the abbreviation of Yoshida Kogyo Kabushibaiasha, is the originator of zipper industry and represents the industrial standard. Because of applying the precise craft, raw materials and management method, YKK price is 10 times as the zippers of other brands and even higher, and at present, YKK is still the owner of largest market share in the zipper industry.

**DURAFLEX**<sup>®</sup>

Duraflex fastener is a world-famous brand of the mountaineering equipment and knapsack plastic components and has existed for more than 20 years since its establishment in US. It is the most widely used brand of plastic fasteners in the global scope, with its production points and sale points spreading around the world now. Unitek International Button Accessories Ltd. (UTX), as one member of the Duraflex group since 1999, is in charge of producing, selling and researching & developing the products, and also provides the solution to the design and development for the industrial brand designers, so it can be regarded as the pioneer in this industry.

## RANGER PACK

- ▶ A very simple mobile phone bag
- ▶ Just the right size to accommodate iPhone 6 plus
- ▶ The removable belt design
- ▶ Can work with almost all the waist bags of GreenHermit

Size	Dimension	Weight	Model
0.1L/3.5OZ	33x9CM/13x3.5IN	38G/1.3OZ	PR-1000
